

BOIL WATER NOTICE

A problem is present in Village of Washingtonville

BOIL YOUR WATER BEFORE USING

Bring tap water to a rolling boil, boil for one minute, and cool before using. Or use bottled water certified for sale by the New York State Department of Health. Boiled or bottled water should be used for drinking, making ice, washing dishes, brushing teeth, and preparing food until further notice.

This Boil Water Notice applies to Secord Ln., Emerson Dr., Bull Rd, Moffat Rd., Woodfield Development area and General Vicinity

What Happened?

Starting on **20 June 2023** the water system had the following problem:

There is a water main break on Seacord Lane that is being repaired.

This problem indicates that harmful microbes may be present in your drinking water. Harmful microbes in drinking water can cause diarrhea, cramps, nausea, headaches, or other symptoms and may pose a special health risk for infants, some elderly, and people with severely compromised immune systems. But these symptoms are not just caused by microbes in drinking water. If you experience any of these symptoms and they persist, you should seek medical advice.

What is being done?

The Village DPW is gathering the repairs materials and will start the repairs ASAP.

It is likely that you will need to boil water for the next **2** days until the problem is fixed. You will be informed when tests show that you no longer need to boil your water.

For more information, please contact:

Chris Martino of the Village of Washingtonville DPW at 845-496-3221

or the Orange County Department of Health at 845-291-2331

Please share this information with other people who drink this water, especially anyone who may not get this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.
