

## 61 East Main Street Traffic Study

The below link contains the videos of our traffic counts. The TDB videos are at Brotherhood Plaza Drive and E Main Street and the camera was positioned at the intersection looking to the west. The other videos are east of the site, east of the crosswalk and looking to the east.

*Please review for this project.*

The TDB videos will open with Windows Media Player but the other videos, if you cannot open, you may need to download a different media player to view.

The VOB file format videos can also be viewed with the VLC video player. You can find more information here:
